Expert Series

DROP FRAME FLEXIBILITY, BECAUSE EVERY ROUTE IS DIFFERENT

Introducing the Expert Series, the most versatile waste collection vehicle on the market. Since 1984, we've been performing our own factory drop frame modifications, enabling us to offer customized solutions to meet our customers' unique needs.

The Expert is designed for efficient waste collection, whether it's manual, semi-automated, or fully automated. Hopper access from both curbside and street side makes it easy to collect waste in alleys and one-way streets. With various configurations and numerous options available, it's hard to find a situation where the Labrie™ Expert wouldn't be a perfect fit.

Laying the foundations for a truly exceptional product.

LABRIE™ INNOVATIONS

With a strong emphasis on innovation, Labrie's engineering team has crafted a comprehensive range of customizable options to cater to even the most stringent customer requirements. We are poised and eager to embrace emerging industry trends and fulfill evolving customer demands. This perpetual cycle of innovation positions Labrie™ as the forefront leader in side loader solutions across North America.

WEIGHT DISTRIBUTION

Over years of innovation, Labrie™ trucks prioritize ideal weight distribution in all models. Our ongoing objective is to achieve the perfect material balance, ensuring models collect more waste while maintaining the highest legal payload.

ENVIROLINK™ HAS LAID THE FOUNDATIONS FOR A BRAND-NEW ERA IN TRUCK INTELLIGENCE.

An improved multiplex network and analog system, cameras and monitors, scales, diagnostic tools, safety interlocks, alerts, GPS tracking, and more are now packaged in a more precise, reliable, and efficient Smart Collection Package.

The rounded, tapered shape of the body maximizes compaction by concentrating material at the back.

15 yd³ to 37 yd³ body sizes

AR Steel liners on the hopper floor and side walls

Proportional joystick, electric over hydraulic

Crusher panel

Tailgates ranging from 0 yd³ to 6 yd³ based on body capacity

Tailgate auto-latch closes straight down to protect rubber seal

Zinc-plated hydraulic tubing

Helping Hand™

- 10 foot reach
- 400 lb lifting capacity
- 13 sec packing cycle

Dual Helping-Hand™ configuration available

Hopper enclosed arm dumps directly into packer area

New sump box 700% larger

IN-HOUSE DROP FRAME MODIFICATION

Labrie™ is the only manufacturer that conducts the drop frame modification process in-house. This gives us direct control over the process, ultimately benefiting our clients.

MANUAL, SEMI-AUTOMATED OR AUTOMATED COLLECTION

The Expert drop frame configuration excels in manual or semi-automated waste/recycling collection, featuring a low loading height.

SPLIT BODY VERSATILITY

50/50, 40/60, or 60/40-split configuration for maximizing payload and adapting route diversion rates.

SINGLE SHEET OF STEEL ON THE BODY SIDES

Enhanced strength and a seamless canvas for graphics, providing greater structural integrity, eliminating the need for reinforcement posts, and reducing the potential for weld seam cracks & corrosion.

SPLIT CHUTE INSIDE THE HOPPER

On comingle units, the split chute is controlled by a hydraulic cylinder, and can be reconfigured on-the-go from within the cab.

ENCLOSED HOPPER

Ideal for preventing waste from flying onto the road and for keeping water, snow, and ice from accumulating overnight.

Expert Series Specifications

Body Specifications		Arm Specifications (Automated Units)		Hydraulic Specifications	
Body Floor	3/16" 50W 50,000 psi	Arm Lift Capacity	400 lbs	Pump	Single Vane (Manual) / Dual Vane (Automated)
Body Sides (lower)	10ga A1011 80,000psi	Arm Reach	84" (120" optional)	Pump Capacity (Manual)	38 gpm@1200 rpm
Body Roof	12ga A1011 80,000psi	Swing out	16"	Pump Capacity (Automated)	BODY: 20 gpm@700 rpm; ARM: 16 gpm@700 rpm
Tailgate	12ga A1011 80,000psi	Arm Controls	Proportional joystick, electric over hydraulic	Max. Operating Pressure	3,000 psi (2,000 psi on single axle chassis)
Cylinder Specifications		Hopper Specifications		Oil Reservoir (conventional cab)	65 gal
Body Lifting Cylinder (15yd³ bodies)	4 stages 6-1/16" bore x 132" stroke	Hopper Size (yd³)	4	Packer Specifications	
Body Lifting Cylinder (20yd³ bodies)	4 stages 6-1/16" bore x 150" stroke	Loading Height	5-1/2" above frame	Compaction ratio (lbs/yd³)	850 (600 on single axle chassis)
Body Lifting Cylinder (27-31yd³ bodies)	4 stages 6-1/16" bore x 180" stroke	Hopper Floor	3/16" 50W 50,000 psi	Packer Panel Face Plate	1/4" 100QT 100,000 psi
Packer Cylinders	4" bore x 2-1/2" rod x 40" stroke	Hopper Floor wear plates	1/4" AR500 190,000psi	Packer width	71"
Tailgate Cylinders	2-1/2" bore x 1-3/4" rod x 39" stroke	Hopper Sides (lower)	3/16" AR200 70,000 psi	Packer height	18"
Arm Extension Cylinders	1-1/2" bore x 1" rod x 52-15/16" stroke	Hopper Sides wear plates	0.157" AR450 175,000psi	Packer stroke	50"
Lifting Cylinder	3" bore x 1-1/2" rod x 16" stroke	Hopper Slope	1/4" AR500 190,000psi		
Grabber Cylinders	1-1/2" bore x 1" rod x 4-15/16" stroke	Hopper Slope wear plates	1/4" AR500 190,000psi
