

Minimax

Minimax Series

SOMETIMES IT PAYS TO HAVE A SMALL TRUCK

As the side-loader market leader, we designed the Minimax to uphold our reputation as an industry leader in quality, and innovative solutions. We've incorporated all the best features of our larger side loaders into the Minimax to ensure it is the most productive and reliable truck in its category. Its low loading height makes it ideal for fully automated, semi-automated, or manual collection, adapting to even the most complex applications.

The Minimax excels at missed pick-ups, parks and recreation areas, airports, university campuses, camping grounds, and all the other places where a smaller truck just makes more sense. Completely redesigned and built tougher, this truck is the ideal solution for optimized route efficiency and reduced costs.

Laying the foundations for a truly exceptional product.

LABRIE™ INNOVATIONS

With a strong emphasis on innovation, Labrie's engineering team has crafted a comprehensive range of customizable options to cater to even the most stringent customer requirements. We are poised and eager to embrace emerging industry trends and fulfill evolving customer demands. This perpetual cycle of innovation positions Labrie™ as the forefront leader in side loader solutions across North America.

WEIGHT DISTRIBUTION

Over years of innovation, Labrie™ trucks prioritize ideal weight distribution in all models. Our ongoing objective is to achieve the perfect material balance, ensuring models collect more waste while maintaining the highest legal payload.

ENVIROLINK™ HAS LAID THE FOUNDATIONS FOR A BRAND-NEW ERA IN TRUCK INTELLIGENCE.

An improved multiplex network and analog system, cameras and monitors, scales, diagnostic tools, safety interlocks, alerts, GPS tracking, and more are now packaged in a more precise, reliable, and efficient Smart Collection Package.

Single piece body walls for increased strength and seamless appearance

AR Steel liners on the hopper floor and side walls

Crusher panel

Proportional joystick: Electric over hydraulic

Optional Durascope nitrated packer & ejector cylinder with shaver

Tailgates ranging from 0 yd³ to 4 yd³ based on body capacity

Tailgate auto-latch closes straight down to protect rubber seal

Up to 900 lbs/yd³ compaction

10 yd³ to 14 yd³ body sizes available

Helping Hand™

- 7 foot reach
- 400 lb lifting capacity

The hopper enclosed arm dumps directly into packer area

LOW PROFILE, SHORT WHEELBASE

The Minimax's short wheelbase makes it highly maneuverable, and with a GVWR under 33,000lbs, it is FET exempt.

STAND-UP DRIVE

Featuring multiple driving configurations for efficient one-man operation, the Minimax offers stand-up drive positions on either or both sides of the truck for added convenience.

TRUSTED HELPING-HAND™ ARM

The Helping-Hand™ arm's pivot point minimizes swing out, making it perfect for loading in spaces with limited operating room.

FULL-EJECT DUMPING SYSTEM

The efficient and reliable full-eject packer blade, with its single telescopic cylinder, offers high compaction and allows for safe unloading without having to raise the body.

LOADING HEIGHT

The low loading height makes it ideal for fully automated, semi-automated, or manual collection, adapting to even the most complex applications.

LARGE HOPPER

AR steel liners for abrasion resistance and reduced body weight, plus optional crusher panel.
